

REFUSE TO GIVE IT UP

The Legislature Decides Not to Surrender Territory North of the Colorado River to State of Utah.

The proposition of the Utah legislature to obtain the consent of the legislature of Arizona for the transfer of the country lying north of the Colorado river to Utah was disposed of last Friday.

The Phoenix Republican says:

The joint committee composed of Messrs. Whiteside, Rice and Corbett of the council and Messrs. Webb, Woolf, Cowan, Page and St. Charles of the house appointed to meet Messrs. D. H. Morris and J. H. Johnson, the commissioners from the Utah legislature in the matter of surrendering that strip of the territory lying north of the Colorado river, to Utah, entertained the commissioners at noon.

Mr. St. Charles also appeared as the special representative of Mohave county and Mr. E. S. Clark appeared for Coconino. The commissioners advanced the same arguments that their predecessors in similar missions had urged; the inaccessibility of the desired country from this side of the Colorado and its contiguity to Utah. The commissioners represented that the country embracing 8,000 square miles was without government and could have none until it should be joined to some government which could reach it.

The next most important event of the day was the report of the joint committee appointed to confer with the Utah "strip" commissioners regarding the segregation from this territory of that part of Arizona lying north of the Colorado. The report opposed the transfer and it was adopted in both houses. A resolution had been adopted in the house giving the commissioners the privilege of the floor, but on the adoption of the report of the joint committee the resolution was annulled since it could serve no useful purpose.

Cancer Cured!!

Mr. W. W. Prickett, Smithfield, Ill., writes, Sept., 10th, 1901: "I had been suffering several years with a cancer on my face, which gave me great annoyance and unbearable itching. I was using Ballard's Snow Liniment for a sore leg, and through an accident, I rubbed some of the liniment on the cancer, and as it gave me almost instant relief. I decided to continue to use the liniment on the cancer. In a short time the cancer came out, my face healed up and there is not the slightest scar left. I have implicit faith in the merits of this preparation, and it cannot be too highly recommended." 25c, 50c and \$1.00. For sale by Pioneer Drug Store.

City of Mexico's Newspapers.

Mexico is a burlesque and one man republic where free press and free speech are not tolerated. Newspaper men are thrown into filthy dungeon jails for simply telling the plain truth. There are two daily papers in the City of Mexico that the government is afraid of, the Imparcial, Spanish, and the Mexican Daily Herald, English. The former is paid \$1,800 monthly and the latter receives \$1,000 from the government to keep mum as a dead oyster. The only improvements, progress and awakening found in the country is that produced by Americans, the natives are as far behind today as they were three hundred years ago. The drawbacks to the country is churches, lotteries, pulque and bull fights. President Diaz has held his job down going on thirty years and proposes to hold it down as long as he and the job lasts.

Arizona's Prehistoric Tribes.

Professor Von Keith, the scientist and artist of Los Angeles, has been in Solomonville for the past week or so. The professor is here in order to obtain data for his forthcoming book to be published on the prehistoric tribes of Arizona, their customs, manner of living, etc. Solomonville is a most advantageous point for the research of the scientist who wish to delve among the ruins of antiquity, the town is built upon the ruins of a vast prehistoric city, and evidences of a one-time prosperous people abound on all sides. Professor Von Keith has been exploring some of these burial grounds and has found some rare specimens of the art of the unknown people. He has a piece of pottery that he believes to be asbestos. He thinks that the ancients knew the art of pulverizing this substance, mixing it with clay and molding it into their household utensils and these have stood the test of time for at least two thousand years.

The habitation of the ancient cliff dwellers are to be found in Bonita canyon some eighteen miles from Solomonville. These mysterious and wonderful abodes of that unknown people offer an attraction that is hardly equaled in the world. These evidences of a diminutive race remain as silent monuments to a people who have passed from the realm of activity thousands of years ago.—Solomonville Bulletin.

WEAK AND LOW-SPIRITED.

A Correspondent Thus Describes His Experiences.

"I can strongly recommend Herbine as a medicine of remarkable efficacy for indigestion, loss of appetite, sour taste in the mouth, palpitation, headache, drowsiness after meals with distressing mental depressions and low spirits. Herbine must be a unique preparation for cases such as mine, for a few doses entirely removed my complaint. I wonder at people going on suffering or spending their money on worthless things, when Herbine is procurable, and so cheap." 50c a bottle at Pioneer Drug Store.

The Ancient Cliff Dwellers.

An old traveler writes to the SUN on the ancient cliff dwellers as follows: "It makes me tired all over to pursue those articles going the rounds of the papers written by fancy and imaginary writers about the 'ancient cliff dwellers' and the 'high degrees of civilization.' The cliff dwellers were nothing more than low bred Mexicans who can be found at present in many parts of Arizona and New Mexico, especially at Morenci, Ariz. and Silver City, N. M. mining camps where a great many Mexicans are employed. Wherever there is any cliffs that will give shelter, there they are living. At Silver City, N. M., they have bored holes in the hill sides, like squirrels, and stuck out a smoke-stack and are living there today with their families. As regards the high degree of civilization, there never was any existed that begins to compare with our present epoch."

Escape an Awful Fate.

Mr. H. Haggins of Melbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by all Druggists. Price 50c & \$1.00. Trial Bottles free.
